Little Building Co

The Little Building Co designs, develops, and manufactures architectural model kits that reflect an honest use of materials and the look and feel of an architect's own studio, while supporting the Foundations, Trusts, and Estates that preserve the legacy of some of the world's greatest architects. Through extensive research—including the study of original drawings, detailed photographs, and cross-referenced details—the company captures the true essence of each building in its models. Every kit is produced with meticulous attention to detail using high-quality, sustainably sourced materials where possible, and comes with clear, easy-to-follow instructions for a rewarding building experience.
