AMEICO

Helle Mardahl Studio operates at the intersection of art and functionality to create a dreamy universe of richly coloured glass designs of eccentric deviance. Influenced by nostalgic memories from childhood and iconic films such as Alice in Wonderland and Charlie & The Chocolate Factory, the collection of glossy glass creates a conceptual candy universe of magic, dreams and indulgence.

A refined collection of mouth-blown glass pendants, offered in an array of vibrant colours. Available in a classic, mini and a drop version, each piece showcases sublime craftsmanship.
