the Chocolate Detective

AMEICO

From Cocoa Farms to Nest

The Chocolate Detective was founded by Chantal Coady OBE, one of Britain's most celebrated chocolate experts and a lifelong advocate for exceptional chocolate with a story to tell. Inspired by nature, travel, and a fascination with cocoa's origins, Chantal created The Chocolate Detective to connect chocolate lovers with the remarkable people, places, and traditions behind every bite.

The much-loved Chocolate Bird Eggs collection is a playful expression of that philosophy. Inspired by the colors and markings of real bird eggs, each carton is filled with beautifully speckled chocolate eggs featuring rich praline and salted caramel centers. Presented in charming egg boxes, the collection celebrates the wonder of the natural world while delivering a delicious surprise inside every shell.

A key influence behind the brand is Grenada, often called the "Spice Isle," where Chantal has spent years building relationships with cocoa farmers and supporting sustainable cocoa production. Her connection to the island's cocoa-growing communities has deepened her appreciation for traceable, responsibly sourced cocoa and the people who nurture it from bean to bar.

Adding to the collection's distinctive character are the delightful watercolor illustrations by artist Madeleine Floyd. Her whimsical birds and natural imagery bring each carton to life, giving every variety its own personality and charm.

The result is a collection that is equal parts delicious, beautiful, and imaginative—bringing together fine chocolate, cocoa-growing traditions, and the joy of discovering nature's most colorful eggs.

Chocolate Bird Eggs

A dozen speckled eggs, irresistibly filled, and Chantal Coady's seal of approval. Rumor has it each one has been meticulously examined through The Chocolate Detective's magnifying glass before making its way into the carton. Inside, you'll discover creamy hazelnut praline or rich salted caramel ganache tucked beneath a chocolate shell.
