AMEICO

THE STORY BEHIND COLLINS

Ever wondered how to bottle a vibe? **Collins** started in Seoul with one simple mission: turning your daily rituals from 'meh' to 'magic.' From ancient incense traditions to our modern 'Mood Waters,' we're in the business of upgrading your atmosphere.

The Smoke Signal

We began by perfecting the 'Sun-hyang' method—a traditional Korean incense craft that ditches the bamboo core for a purer experience. By using a master-crafted blend of wood powder and oils, we created a clean, low-smoke burn that smells like a dream. With 25 years of expertise in every stick, it's not just incense; it's a masterpiece.

Making a Splash

Why stop at smoke? We wanted to capture moods in liquid form, leading to our 'Mood Waters.' These ethanol-free, water-based sprays are basically liquid vibes. Mist them on your linens or in the air for an instant mood shift without the heavy chemicals.

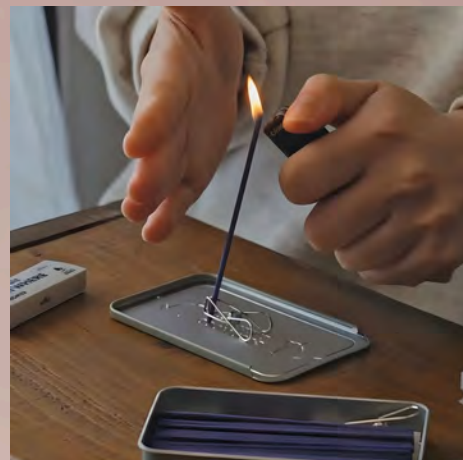

Scents for the Soul

We name our scents after feelings, not just ingredients. Whether you're refreshing with a 'Welcome Drink' or winding down with a 'Fluffy Pillow,' Collins is here to curate the perfect backdrop for your life's best moments.

The Collins Vibe Check

Clean Burning: Low-smoke, bamboo-free incense for a pure experience.

- **Mood-Centric:** Scents designed to influence your environment and state of mind.
- **Versatile:** Perfect for home, office, or travel rituals.
- **Artisanal Quality:** Crafted in Seoul with 25 years of expertise.
- **Sustainable Practice:** Consciously made with natural, high-quality ingredients.
- **Gift-Ready:** Beautifully packaged, making them the perfect thoughtful gift for any occasion.
